Democracy Redefined

About **Phone2Vote.com**

In 1947 when Indian democracy was born the total number of voters were just 10.60 crores In the 2009 elections the number of voters increased to 71.4 crores. The number of voters are too many for the political leaders to serve. Therefore, leaders are not able to respond to the citizens or solve problems. They also need to create a database and communicate to the voters whom they had previously helped.

Technology Advanced - Life Simplified

Connecting Voters with Leaders

Phone2vote uses advanced technology to simplify communication between voters and leaders and also enables the leaders to create a database of voters they have communicated with so as to enable them to contact them during elections.

Easy connection between voter and leader

Redefining Democracy

Phone2Vote redefines democracy by bringing the voters and leaders together as a team to solve problems.

EW

Features of Phone2Vote

A phone number that is never busy

Phone 2 Vote will provide you a dedicated phone number that must be promoted by a leader in the constituency. A citizen calls the number and recorded greeting by the leader will ask him/her to leave a message. Call the citizen back to discuss and solve the problem.

Leaders available 24 hours on internet

Phone2Vote will create a page for you on its website. When a voter keys in their pincode you will show up among the leaders if it is in your constituency. They can question or start a discussion on local issues to which your office can respond at convenience.

Benefits to Leaders and Citizens

Many people will contact you via phone or computer; you can develop a relationship with them by serving. You can build a database of citizens with their numbers. Then it becomes easy to get their support during elections.

Enabling you to be available to the voter 24 X 7 while ensuring that you can do the work at your leisure.

GET TO KNOW US:

How do I register with Phone2Vote?

Send your name, constituency, and contact details with a cheque for Rs 84,270 to register yourself. Then P2V will send you a password to record your phone message and activate your web page, after reading and accepting the agreement.

How much does it cost?

Phone2Vote is a subscription based service for Rs. 1,00,000 a year. You can avail the inaugural discount and register for the service for Rs. 84,270 a year including taxes.

Do I have to pay for each call I receive?

No. You pay only the yearly fee.

Can people call from any mobile or landline number?

Yes.

Do I have to be an elected representative to avail the service?

No. Any political leader or aspiring political leader can avail the service.

Do I have to handle the communication myself?

No. Your office can call back people and respond to them, under your supervision.

My staff do not know how to use internet, can I avail the system?

Phone2vote is a very simple system that is very easy to operate on internet.

What happens to the database if I do not contest?

You can transfer the database to anybody. For example if someone you support is contesting, they can use your database to communicate with the voters.

Is the service available in my constituency?

The service is available in every constituency in India.
